Item 4 Advisory Business

A. History of the firm; ownership of the firm.

Laura Tarbox began her career in the advisory business in 1980 with a boutique investment firm in Tustin, California, which was affiliated with a large independent broker/dealer. Although she found the world of investments to be very compelling, the industry culture of day trading stocks, pitching the latest investments and cold calling for new clients quickly lost its appeal. Laura discovered the CERTIFIED FINANCIAL PLANNER™ courses, where she found she could use her investment knowledge in conjunction with the practice of holistic planning, and became one of the early pioneers of the financial planning profession. Laura completed the CFP® program in 1983, and founded The Tarbox Group, Inc. (the “Tarbox Group” or “we”) on January 1, 1985 in the State of California.

Laura Tarbox is the owner and principal of Tarbox Family Office, Inc., and founded the firm as an SEC-registered investment adviser. Never comfortable with the conflicts inherent in selling products, Laura made the decision to drop her securities and insurance licenses in 1990, becoming one of the first truly fee-only financial advisors in the U.S. The firm is not affiliated with any bank, brokerage firm, insurance or trust company, and is privately held. Tarbox Family Office, Inc. does not sell any products, or take any commissions, trails, or referral fees. Our allegiance is to our client, and our incentive is to serve our clients` best interest.

During the 1990s, Laura built the firm and its reputation, and has developed a team approach to providing financial planning and investment advisory services. She has added talented, multi-disciplined professionals with expertise in tax, investments, retirement and estate planning.

B. Types of Services

Financial Planning, Tax Preparation and Consulting Services

Tarbox Family Office, Inc. approach starts with the evaluation and review of its clients` financial concerns, risks and objectives. We suggest strategies to accomplish agreed-upon goals, and use a coordinated implementation and follow-through process once decisions are made. Results and progress are evaluated on an ongoing basis.

Financial planning services may include:

- Coordination of multi-generational estate planning and wealth transfer
- Assistance in establishing goals and development of overall family financial plan
- Advice on philanthropic giving and management
- Help with maximizing employee benefits
- Assistance with complex financial transactions
- Work with and/or coordination with other close family members
- Cash-flow analysis and management
- Review and management of insurance coverage
- Ongoing tax planning, consulting, and coordination
- Preparation of income tax returns under the terms of a separate agreement

Investment Advisory Services

Investment management is implemented as part of the client's overall plan and involves the management and/or oversight of all assets on an ongoing basis. We provide disciplined and customized institutional-grade investment management for both taxable and tax-deferred clients.

Tarbox Family Office, Inc. uses an asset class investing approach, with a variety of asset types to build portfolios, and a strong preference for liquidity, where possible. Tarbox Family Office, Inc. looks at the performance of various asset classes over long periods of time to determine its sector allocations for its models, then chooses the most appropriate vehicle to obtain the appropriate exposure to those asset classes.

Equities

Tarbox Family Office, Inc.'s core investment portfolios include equity exposure to Global, Domestic (U.S.), Developed International and Emerging Markets. We diversify across equity markets, making small shifts into equity exposures that look most attractive to use for the next one to three years. For example, we may overweight U.S. stocks and underweight developed international stocks. Within the broader equity market, we invest across market capitalizations (large, mid, small and microcap) and styles (value and growth). The focus is not on individual companies or marketing timing maneuvers.

Typically, the firm indexes the core of each of our equity portfolios. Tarbox Family Office, Inc. believes traditional index funds have significant benefits that include an easily understandable discipline, transparency, reduced costs, tax efficiency, and lack of subjectivity, all of which have been shown to add significantly to investment returns. For example, we use S&P 500 index funds to provide primary exposure to large-cap U.S. stocks. We will often use Exchange Traded Funds ("ETFs") to implement index strategies. When consistent with a client's investment objectives, we may allocate to "interval funds." Investment companies structured as "interval funds" are generally designed for long-term investors that do not require daily liquidity. Shares in interval funds typically do not trade on the secondary market. Instead, their shares are subject to periodic redemption offers by the fund at a price based on net asset value. Accordingly, interval funds are subject to liquidity constraints. Interval funds investing in securities of companies with smaller market capitalizations, derivatives, or securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk. Generally, the interval funds we use offer a two to three week period, on a quarterly basis, during which the client may seek the redemption of the previously purchased interval funds.

We may include actively-managed mutual funds in client portfolios, which seek to add value by:

- Providing specific exposure to portfolios to more inefficient asset classes such as small-cap or emerging markets
- Allowing great stock pickers to identify attractive companies
- Protecting portfolios in down markets

Important factors that we consider to help identify superior active managers include:

- An investment approach that is consistent and repeatable
- Reasonable expenses
- Mindfulness of the importance of maximizing pre-tax and after-tax performance
- Risk and return analysis
- Managers who invest their own money in the funds they manage

- Portfolio concentration – conviction, keeping risk in mind

Fixed Income

Tarbox Family Office, Inc. includes bond and cash investments in client portfolios to provide stable cash flow. We participate across a full spectrum of fixed income assets, allowing us to invest where we find the greatest potential value, i.e., corporates, agencies, municipals, etc. Individual fixed income portfolio construction involves:

- Controlling portfolio duration to protect from interest rate fluctuations
- Managing the impact of callable bonds
- Cash flow-liability matching, if appropriate
- Building of national and state-specific portfolios

The factors under consideration when constructing the fixed income portfolio include:

- Controlling costs by working with multiple bond sources and technology sources (i.e., Bloomberg) to obtain the highest bond yields
- Minimizing tax impact: Utilization of federal and state tax-free bonds for clients in higher tax brackets
- Asset location: Placement of tax-inefficient holding in tax-deferred accounts when possible

Alternatives

Tarbox Family Office, Inc. client portfolios have an allocation to alternatives, which are typically comprised of mutual funds. We feel that alternatives can potentially reduce portfolio risk and enhance returns because this asset class does not always move in sync with the stock or bond markets. These holdings may include:

- Single-strategy hedge funds
- Hedge fund-of-funds
- Long-short funds
- Arbitrage strategies
- Managed futures
- Value-added real estate partnerships
- Real estate investment trusts (“REITs”)
- Commodities
- Hedged mutual funds
- Private equity

MISCELLANEOUS

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services

To the extent requested by a client, Tarbox Family Office, Inc. may provide services regarding non-investment related matters, such as: estate planning, tax planning, tax preparation, insurance consulting, etc. Tarbox Family Office, Inc. does not serve as a law firm, or insurance agency, and no portion of Tarbox Family Office, Inc.'s services should be construed as legal services or insurance sales. Tarbox Family Office, Inc. does not prepare estate planning documents, or sell insurance products. Unless specifically agreed in writing, neither Tarbox Family Office, Inc. nor its representatives are responsible to implement any financial plans or financial planning advice; provide ongoing financial planning services; or provide ongoing monitoring of financial plans or financial planning advice. The client retains absolute discretion over all financial planning and related implementation decisions, and is free to accept or reject any recommendation from Tarbox Family Office, Inc. and its representatives in that respect. Tarbox Family Office, Inc.'s financial planning and consulting services are completed upon communicating its recommendations to the client, upon delivery of the written financial plan, or upon termination of the applicable agreement. To the extent requested by a client, Tarbox Family Office, Inc. may recommend the services of other professionals for certain non-investment implementation purposes (i.e., attorneys, accountants, insurance agents, etc.). Clients are under no obligation to engage the services of any recommended professional, who shall be solely responsible for the quality and competency of the services they provide. If the client engages any unaffiliated recommended professional, and a dispute arises related to the engagement, the client should seek recourse exclusively from and against the engaged professional.

Fee Differentials

Tarbox Family Office, Inc. prices its services based upon various objective and subjective factors. As a result, clients could pay diverse fees based upon the market value of their assets, the complexity of the engagement, and the level and scope of the overall investment advisory and/or consulting services to be rendered. As a result of these factors, the services to be provided by Tarbox Family Office, Inc. to any particular client could be available from other advisers at lower fees, and similarly situated clients may pay diverse fees. All clients and prospective clients should be guided accordingly

Independent Managers and Asset-Based / Transaction-Based Pricing

For those clients that require an enhanced and/or specialized level of investment management services, Tarbox Family Office, Inc. may also recommend that certain clients authorize Tarbox Family Office, Inc. to allocate, on a non-discretionary basis, the active discretionary management of a portion of their assets by and/or among certain independent investment managers to be selected by Tarbox Family Office, Inc. (the "Independent Managers"), based upon the stated investment objectives of the client and according to the terms and conditions of a separate agreement executed between the client and the Independent Manager. Tarbox Family Office, Inc. shall continue to render ongoing and continuous advisory services to the client relative to the monitoring and review of account performance, client investment objectives, and asset allocation, for which Tarbox Family Office, Inc. shall receive an annual advisory fee which is based upon a percentage of the market value of the assets being managed by the designated Independent Managers. Factors which Tarbox Family Office, Inc. shall consider in recommending Independent Managers include the client's stated investment objectives, management style, performance, reputation, financial strength, reporting, pricing, and research. The investment management fees charged by the designated Independent Managers, together with the fees charged by the corresponding designated broker-dealer/custodian of the client's assets, are exclusive of, and in addition to, Tarbox Family Office, Inc.'s ongoing investment advisory fee. Fees charged by Tarbox Family Office, Inc. pursuant to the use of Independent Managers may be either in advance or arrears depending upon the specific Independent Manager relationship, and will be disclosed to the client at the point of entering into the advisory relationship.

Unaffiliated Private Investment Funds

Tarbox Family Office, Inc. may provide investment advice about unaffiliated private investment funds and may also recommend, on a non-discretionary basis, that certain qualified clients consider an investment in

such unaffiliated private investment funds. Tarbox Family Office, Inc.'s role relative to the private investment funds shall be limited to its initial and ongoing due diligence and investment monitoring services. If a client determines to become a private fund investor, the amount of assets invested in the funds shall be included for purposes of Tarbox Family Office, Inc. calculating its annual investment advisory fee. Tarbox Family Office, Inc.'s clients are under absolutely no obligation to consider or make an investment in a private investment funds.

Private Investment Fund Risk Factors. Private investment funds generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints and lack of transparency, a complete discussion of which is set forth in each fund's offering documents, which will be provided to each client for review and consideration. Unlike liquid investments that a client may maintain, private investment funds do not provide daily liquidity or pricing. Each prospective client investor will be required to complete a Subscription Agreement, pursuant to which the client shall establish that he/she is qualified for investment in the fund, and acknowledges and accepts the various risk factors that are associated with such an investment.

Private Investment Fund Risk Valuation. If Tarbox Family Office, Inc. bills an investment advisory fee based upon the value of private investment funds or otherwise references private investment funds owned by the client on any supplemental account reports prepared by Tarbox Family Office, Inc., the value for all private investment funds owned by the client will reflect the most recent valuation provided by the fund sponsor. The current value of any private investment fund could be significantly more or less than the original purchase price or the price reflected in any supplemental account report.

Margin / Securities Based Loans

Upon client request, Tarbox Family Office, Inc. may help a client establish a margin account / apply for a securities based loan with the client's broker-dealer/custodian or their affiliated banks (each, a "Margin Lender") to collateralize investment assets to access cash flow. Unlike a traditional real estate-backed loan, a margin loan has the potential benefit of enabling borrowers to access to funds in a shorter period of time, providing greater repayment flexibility, and may also result in the borrower receiving certain tax benefits. Clients interested in learning more about the potential tax benefits of borrowing money on margin should consult with an accountant or tax advisor. The terms and conditions of each margin loan are contained in a separate agreement between the client and the Margin Lender selected by the client, which terms and conditions may vary from client to client. Borrowing funds on margin is not suitable for all clients and is subject to certain risks, including but not limited to: increased market risk, increased risk of loss, especially in the event of a significant downturn; liquidity risk; the potential obligation to post collateral or repay the margin loan if the Margin Lender determines that the value of collateralized securities is no longer sufficient to support the value of the margin loan; the risk that the Margin Lender may liquidate the client's securities to satisfy its demand for additional collateral or repayment / the risk that the Margin Lender may terminate the margin loan at any time. Before agreeing to participate in a margin program, clients should carefully review the applicable margin agreement and all risk disclosures provided by the Margin Lender including the initial margin and maintenance requirements for the specific program in which the client enrolls, and the procedures for issuing "margin calls" and liquidating securities and other assets in the client's accounts.

If a client determines to use margin to purchase assets that Tarbox Family Office, Inc. will manage, Tarbox Family Office, Inc. would include the entire market value of the margined assets when computing its advisory fee, which would present a conflict of interest to the extent it increases Tarbox Family Office, Inc.'s advisory fee. Another conflict of interest would arise if Tarbox Family Office, Inc. recommends the use of margin, and also has an economic disincentive to recommend that the client terminate the use of margin to preserve asset based fees on the collateralized assets.

Client Obligations

In performing its services, Tarbox Family Office, Inc. will not be required to verify any information received from the client or from other designated professionals who provide services to the client, and Tarbox Family Office, Inc. is expressly authorized to rely thereon. Clients maintain responsibility to promptly notify Tarbox Family Office, Inc. if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating, or revising Tarbox Family Office, Inc.'s previous recommendations or services.

Disclosure Statement

A copy of Tarbox Family Office, Inc.'s written disclosure statement as set forth on Part 2 of Form ADV will be provided to each client prior to, or contemporaneously with, the execution of the Investment Advisory Agreement or Financial Planning and Consulting Agreement.

Retirement Plan Rollovers-No Obligation/Conflict of Interest

A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). If Tarbox Family Office, Inc. recommends that a client roll over their retirement plan assets into an account to be managed by Tarbox Family Office, Inc., such a recommendation creates a conflict of interest if Tarbox Family Office, Inc. will earn a new (or increase its current) advisory fee as a result of the rollover. No client is under any obligation to roll over plan assets to an IRA managed by Tarbox Family Office, Inc. or to engage Tarbox Family Office, Inc. to monitor and/or manage the account while maintained at the client's employer. Tarbox Family Office, Inc.'s Chief Compliance Officer, Mary Sigler remains available to address any questions that a client or prospective client may have regarding its prospective engagement and the corresponding conflict of interest presented by such engagement.

Availability of Mutual Funds and Exchange Traded Funds

While Tarbox Family Office, Inc. may recommend allocating investment assets to mutual funds and ETFs that are not available directly to the public, Tarbox Family Office, Inc. may also recommend that clients allocate investment assets to publicly-available mutual funds and ETFs that the client could obtain without engaging Tarbox Family Office, Inc. as an investment adviser. However, if a client or prospective client determines to allocate investment assets to publicly-available mutual funds without engaging Tarbox Family Office, Inc. as an investment adviser, the client or prospective client would not receive the benefit of Tarbox Family Office, Inc.'s initial and ongoing investment advisory services with respect to those assets.

Cash Positions

Tarbox Family Office, Inc. may hold a portion of client's assets in cash or cash equivalent positions (such as but not limited to money market funds) typically for defensive and liquidity purposes. Investments in these assets may cause a client to miss upswings in the markets. Unless Tarbox Family Office, Inc. expressly agrees otherwise in writing, account assets consisting of cash and cash equivalent positions are included in the value of an account's assets for purposes of calculating Tarbox Family Office, Inc.'s advisory fee. A client can advise Tarbox Family Office, Inc. not to maintain (or to limit the amount of) cash or cash equivalent positions in their account

Third Party Reporting Services

Tarbox Family Office, Inc. may provide access to reporting services through one or more third-party aggregation / reporting platforms that can reflect all of the client's investment assets, including those investment assets that the client has not engaged Tarbox Family Office, Inc. to manage (the "Excluded Assets"). Tarbox Family Office, Inc.'s service for the Excluded Assets is strictly limited to reporting, and specifically excludes investment management or implementation. Because Tarbox Family Office, Inc. does not have trading authority for the Excluded Assets, the client (and/or another investment professional), and not Tarbox Family Office, Inc., will be exclusively responsible for directly implementing any recommendations for the Excluded Assets. Further, the client and/or their other advisors that maintain trading authority, and not Tarbox Family Office, Inc., shall be exclusively responsible for the investment performance or related activity (such as timing and trade errors) pertaining to the Excluded Assets. The third-party aggregation / reporting platforms may also provide access to financial planning information and applications, which should not be construed as services, advice, or recommendations provided by Tarbox Family Office, Inc.. Accordingly, Tarbox Family Office, Inc. shall not be held responsible for any adverse results a client may experience if the client engages in financial planning or other functions available on the third party reporting platforms without Tarbox Family Office, Inc.'s participation or oversight.

Portfolio Trading Activity and Inactivity

As part of its investment advisory services, Tarbox Family Office, Inc. will review client portfolios on an ongoing basis to determine if any trades are necessary based upon various factors, including but not limited to investment performance, fund manager tenure, style drift, account additions/withdrawals, the client's financial circumstances, and changes in the client's investment objectives. Based upon these and other factors, there may be extended periods when Tarbox Family Office, Inc. determines that upon review, trades within a client's portfolio are not prudent. Clients nonetheless remain subject to the fees described in Item 5 during periods of portfolio trading inactivity.

Cybersecurity Risk

The information technology systems and networks that Tarbox Family Office, Inc. and its third-party service providers use to provide services to Tarbox Family Office, Inc.'s clients employ various controls, which are designed to prevent cybersecurity incidents stemming from intentional or unintentional actions that could cause significant interruptions in Tarbox Family Office, Inc.'s operations and result in the unauthorized acquisition or use of clients' confidential or non-public personal information. Clients and Tarbox Family Office, Inc. are nonetheless subject to the risk of cybersecurity incidents that could ultimately cause them to incur losses, including for example: financial losses, cost and reputational damage to respond to regulatory obligations, other costs associated with corrective measures, and loss from damage or interruption to systems. Although Tarbox Family Office, Inc. has established its systems to reduce the risk of cybersecurity incidents from coming to fruition, there is no guarantee that these efforts will always be successful, especially considering that Tarbox Family Office, Inc. does not directly control the cybersecurity measures and policies employed by third-party service providers. Clients could incur similar

adverse consequences resulting from cybersecurity incidents that more directly affect issuers of securities in which those clients invest, broker-dealers, qualified custodians, governmental and other regulatory authorities, exchange and other financial market operators, or other financial institutions.

C. Advisory Services Tailored to Individual Clients

Tarbox Family Office, Inc.'s goal is not to beat a particular index – it is to meet or exceed our clients' specific required or targeted rate of return. No two clients have the same situation, so no two clients have the same investment portfolio. In all cases, the firm's clients appreciate the focus and attention given to their unique situation.

We work with the client to establish a unique Investment Policy Statement ("IPS"), the purpose of which is to agree on a set of general parameters, and select an allocation to one of Tarbox Family Office, Inc.'s four model strategies: Stable Growth, Conservative Growth, Moderate Growth and Growth. The appropriate model strategy is based on the appropriate target volatility/return portfolio, given the client's risk tolerance. Once the strategy is selected, Tarbox Family Office, Inc. individually manages each client portfolio in conformity with the IPS.

To build a client customized portfolio, we use the following investment process:

- For individuals and families, we start with a review of the client's current investments, tax situation, income needs, family dynamics, and short- and long-term goals.
- For foundations and endowments, we review the entity's current policy and investment profile in relation to its spending needs.

This provides a risk/reward profile that leads toward the selection of a targeted asset allocation. The client may, at any time, impose reasonable restrictions, in writing, on Tarbox Family Office, Inc.'s services.

D. Wrap-Fee Programs

Tarbox Family Office, Inc. does not participate in a wrap fee program.

E. Assets Under Management

As of December 31, 2020, Tarbox Family Office, Inc. had \$841,481,772 in assets under management on a discretionary basis.

Item 5 Fees and Compensation

A. Compensation; Fee schedule

Tarbox Family Office, Inc. offers its services on a fee-only basis, which may include hourly and/or fixed fees, as well as fees based upon assets under management. As client objectives, security types, account management, and reporting complexity all impact Tarbox Family Office, Inc.'s management costs, the minimum account size and rate schedule are negotiable under special circumstances.

Investment Advisory Services

If a client determines to engage Tarbox Family Office, Inc. to provide discretionary investment advisory services on a fee-only basis, the annual investment advisory fee varies (from 0.20% up to 1.00% of the total assets under management), and is based upon various objective and subjective factors, such as the amount of the assets under management and/or advisement, the complexity of the engagement, and the level and scope of the overall investment advisory services to be rendered. As a result, similarly situated clients could pay diverse fees. Tarbox Family Office, Inc.'s Chief Compliance Officer, Mary Sigler remains available to address any questions that a client or prospective client may have regarding this fee arrangement, fee disparity, impact on account performance, or any related issues.

Financial Planning, Tax Preparation and Consulting Services (Stand-Alone)

Tarbox Family Office, Inc. may provide financial planning, tax preparation and/or consulting services (including investment and non-investment related matters, estate planning, insurance planning, etc.) on a stand-alone separate fee basis. The negotiable fees for these services generally range from \$5,000 to \$20,000 on a fixed-fee basis, or between \$175.00 to \$600.00 per hour on an hourly rate basis, depending upon the level and scope of the services required and the professionals rendering those services. Before engaging Tarbox Family Office, Inc. to provide these services, clients are generally required to enter into a Financial Planning and Consulting Agreement and/or Tax Preparation Agreement that: sets forth the terms and conditions of the engagement (including termination); describes the scope of the services to be provided; and describes the portion of the fee that is due from the client prior to Tarbox Family Office, Inc. commences services.

B. Fee Payment Method

Investment advisory fees are billed in arrears and payable each quarter. The fee is based on the market value of the account on the last business day of the previous quarter. Although the majority of Tarbox Family Office, Inc.'s clients may have their fees deducted from their accounts, clients may choose to be billed directly.

C. Other Types of Fees/Expenses

Management fees paid to Tarbox Family Office, Inc. are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which will be incurred by the client. Clients may incur certain charges imposed by custodians, brokers, and other parties. These charges could include custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer fees, electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Tarbox Family Office, Inc. does not receive any portion of these commissions, fees, or costs, and strives to negotiate and minimize such expense wherever possible. Also, relative to its discretionary investment management services, when beneficial to the client, individual fixed income transactions may be executed through broker-dealers other

than the account custodian, in which event, the client generally will incur both the fee (commission, mark-up/mark-down) charged by the executing broker-dealer and a separate “tradeaway” and/or prime broker fee charged by the account custodian. The fees charged by the applicable broker-dealer/custodian, and the charges imposed at the mutual fund and exchange traded fund level, and the fees incurred with respect to the client’s engagement of Independent Managers described above are in addition to Tarbox Family Office, Inc.’s investment advisory fees referenced in this Item 5. Please refer to Section 12 – Brokerage Practices for a more detailed discussion of brokerage practices.

D. Fees in advance

Investment advisory fees are billed in arrears and payable each quarter. Upon termination of applicable form of agreement, Tarbox Family Office, Inc. will debit the account or bill the client (as applicable) for the pro-rated portion of the unpaid advisory fee based upon the number of days that services were provided during the billing quarter.

E. Additional Compensation

Neither Tarbox Family Office, Inc., nor its representatives accept compensation from the sale of securities or other investment products.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither Tarbox Family Office, Inc. nor any supervised person of Tarbox Family Office, Inc. accepts performance-based fees.

Item 7 Types of Clients

Tarbox Family Office, Inc. currently provides advisory services to the following types of clients:

- High net worth individuals
- Pension and profit sharing plans
- Charitable Organizations
- Business entities
- Trusts & Estates

Tarbox Family Office, Inc. generally seeks to work with clients having initial minimum account assets of \$5 million for combined planning and investment management services. Tarbox Family Office, Inc. may reduce or waive this general requirement based upon certain criteria (i.e. anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, etc.).

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

A. Tarbox Family Office, Inc. may utilize the following methods of security analysis:

- Charting - (analysis performed using patterns to identify current trends and trend reversals to forecast the direction of prices)
- Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
- Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)
- Cyclical – (analysis performed on historical relationships between price and market trends, to forecast the direction of prices)

Tarbox Family Office, Inc. may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year)
- Short Term Purchases (securities sold within a year)
- Trading (securities sold within thirty (30) days)

We focus on the “big picture” decisions that seek to maximize the likelihood that investment returns will meet client objectives. Our investment philosophy encompasses what we feel are the top three most important factors in designing a portfolio:

- Strategic asset allocation: This is the most significant component affecting portfolio returns.
- Diversification: It is essential to diversify among asset classes, investment styles and holdings to reduce risk.
- Costs: Keeping expenses and taxes to a minimum has a tremendous effect on long-term returns.

Tarbox Family Office, Inc.’s investment philosophy is centered on the assumption that the most securities markets are generally efficient. The firm does not engage in individual stock picking, believing that a well-diversified portfolio will outperform an actively managed portfolio over most full market cycles. The firm also does not engage in market timing, maintaining client allocations throughout market cycles.

Investment Risk in General. Investing in securities involves risk of loss that clients should be prepared to bear, including the loss of principal investment. Past performance does not guarantee future results. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by Tarbox Family Office, Inc.) will be profitable or equal any specific performance level. Investment strategies such as asset allocation, diversification, or rebalancing do not assure or guarantee better performance and cannot eliminate the risk of investment losses. There is no guarantee that a portfolio employing these or any other strategy will outperform a portfolio that does not engage in such strategies. While asset values may increase and client account values could benefit as a result, it is also possible that asset values may decrease and client account values could suffer a loss.

- B. Tarbox Family Office, Inc.'s methods of analysis and investment strategies do not present any significant or unusual risks. However, every method of analysis has its own inherent risks. To perform an accurate market analysis Tarbox Family Office, Inc. must have access to current/new market information. Tarbox Family Office, Inc. has no control over market information, and unknowingly may make decisions with outdated market information, limiting the value of the analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

Tarbox Family Office, Inc.'s primary investment strategies - Long Term Purchases, Short Term Purchases, and Trading - are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy. Trading, an investment strategy that requires the purchase and sale of securities within a thirty (30) day investment time period, involves a very short investment time period but will incur higher transaction costs when compared to a short term investment strategy and substantially higher transaction costs than a longer term investment strategy.

- C. Currently, Tarbox Family Office, Inc. primarily allocates client investment assets among various individual equity (stocks), debt (bonds) and fixed income securities, and/or mutual funds and Exchange Traded Funds (ETFs) on a discretionary basis in accordance with the client's designated investment objectives. When consistent with a client's investment objectives, Tarbox Family Office, Inc. may also recommend that clients allocate investment assets to unaffiliated private investment funds. Please refer to Item 4, above, with respect to the additional considerations and risk factors involved in those strategies.

Item 9 Disciplinary Information

Tarbox Family Office, Inc. has not been the subject of any disciplinary actions.

Item 10 Other Financial Industry Activities and Affiliations

- A. Neither Tarbox Family Office, Inc., nor its representatives, are registered or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither Tarbox Family Office, Inc., nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. TD Ameritrade Institutional President's Council. Laura Tarbox, the owner and principal of Tarbox Family Office, Inc., serves on the TD Ameritrade Institutional President's Council (the "Council"). The Council consists of former Advisor Panel Members who are independent investment advisors that advise TD Ameritrade Institutional ("TDA Institutional") about issues relevant to the independent investment advisor community. Ms. Tarbox may be called upon periodically to attend meetings and participate on conference calls or outreaches on an as needed basis. Investment advisors are invited to serve on the Council for an ongoing term by TDA Institutional senior management. At times, Council members are provided confidential information about TDA

Institutional initiatives. Council Members are therefore required to sign a confidentiality agreement. TD Ameritrade, Inc. does not compensate Council members. However, Ms. Tarbox receives free airfare to attend Council meetings every other year. The benefits that Laura Tarbox or Tarbox Family Office, Inc. receives by serving on the Council do not depend on the amount of brokerage transactions directed to TD Ameritrade, Inc. or its affiliated entities. Clients should be aware, however, that the receipt of economic benefits by Ms. Tarbox or Tarbox Family Office, Inc. presents a conflict of interest because it may incentivize Tarbox Family Office, Inc. and its representatives to recommend that clients engage TD Ameritrade, Inc., TDA Institutional, and affiliated entities to provide broker-dealer/custodial, or other services based on the intention to receive the above-described benefits. Clients are therefore reminded that they are not required to engage TD Ameritrade, Inc., TDA Institutional, any affiliated entities to provide broker-dealer/custodial services.

- D. Tarbox Family Office, Inc. does not recommend or select other investment advisors for its clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. Tarbox Family Office, Inc. maintains an investment policy relative to personal securities transactions. This investment policy is part of Tarbox Family Office, Inc.’s overall Code of Ethics, which serves to establish a standard of business conduct for all of its Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, Tarbox Family Office, Inc. also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by Tarbox Family Office, Inc. or any person associated with Tarbox Family Office, Inc.

- B. Neither Tarbox Family Office, Inc. nor any related person recommends, buys, or sells for client accounts, securities in which Tarbox Family Office, Inc. or any related person of Tarbox Family Office, Inc. has a material financial interest.
- C. Tarbox Family Office, Inc. and/or representatives of Tarbox Family Office, Inc. may buy or sell securities that are also recommended to clients. This practice may create a situation where Tarbox Family Office, Inc. and/or representatives of Tarbox Family Office, Inc. are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a potential conflict of interest. Practices such as “scalping” (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if Tarbox Family Office, Inc. did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, “front-running” (i.e., personal trades executed prior to those of Tarbox Family Office, Inc.’s clients) and other potentially abusive practices.

Tarbox Family Office, Inc. has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of Tarbox Family Office, Inc.’s “Access Persons.” Tarbox Family Office, Inc.’s securities transaction policy requires that Access Person of Tarbox Family Office, Inc. must provide the Chief Compliance Officer or their designee with a written report of their current securities holdings within ten (10) days after becoming an

Access Person. Additionally, each Access Person must provide the Chief Compliance Officer or their designee with a written report of the Access Person's current securities holdings at least once each twelve (12) month period thereafter on a date Tarbox Family Office, Inc. selects; provided, however that at any time that Tarbox Family Office, Inc. has only one Access Person, he or she will not be required to submit any securities report described above.

- D. Tarbox Family Office, Inc. and/or representatives of Tarbox Family Office, Inc. may buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where Tarbox Family Office, Inc. and/or representatives of Tarbox Family Office, Inc. are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a potential conflict of interest. As indicated above in Item 11.C, Tarbox Family Office, Inc. has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Tarbox Family Office, Inc.'s Access Persons.

Item 12 Brokerage Practices

- A. If the client requests that Tarbox Family Office, Inc. recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct Tarbox Family Office, Inc. to use a specific broker-dealer/custodian), Tarbox Family Office, Inc. generally recommends that investment management accounts be maintained at TD Ameritrade Inc., member FINRA/SIPC and its affiliates ("TD Ameritrade"). Before engaging Tarbox Family Office, Inc. to provide investment management services, the client will be required to enter into a formal Investment Advisory Agreement with Tarbox Family Office, Inc. setting forth the terms and conditions under which Tarbox Family Office, Inc. will manage the client's assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian. Depending on which custodian clients select to maintain their account, they may experience differences in customer service, transaction timing, the availability of sweep account vehicles and money market funds, and other aspects of investing. In certain instances, these differences could cause differences in account performance.

Factors that Tarbox Family Office, Inc. considers in recommending TD Ameritrade (or any other broker-dealer/custodian) include historical relationship with Tarbox Family Office, Inc., financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Tarbox Family Office, Inc.'s clients will conform to Tarbox Family Office, Inc.'s duty to seek best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to execute the same transaction where Tarbox Family Office, Inc. determines, in good faith, that the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Tarbox Family Office, Inc. will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Tarbox Family Office, Inc.'s investment advisory fee.

Tarbox Family Office, Inc. participates in TD Ameritrade's institutional customer program and Tarbox Family Office, Inc. may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Tarbox Family Office, Inc.'s participation in the program and the investment advice it gives to its Clients, although Tarbox Family Office, Inc. receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Tarbox Family Office, Inc. participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Tarbox Family Office, Inc. by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Tarbox Family Office, Inc.'s related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Tarbox Family Office, Inc. but may not benefit its Client accounts. These products or services may assist Tarbox Family Office, Inc. in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Tarbox Family Office, Inc. manage and further develop its business enterprise. The benefits received by Tarbox Family Office, Inc. or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, Tarbox Family Office, Inc. endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Tarbox Family Office, Inc. or its related persons in and of itself creates a potential conflict of interest and may indirectly influence Tarbox Family Office, Inc.'s choice of TD Ameritrade for custody and brokerage services.

1. Non-Soft Dollar Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, Tarbox Family Office, Inc. receives from TD Ameritrade (or could receive from other broker-dealer/custodians, unaffiliated investment managers, vendors, investment platforms, and/or product/fund sponsors) without cost (and/or at a discount) support services and/or products, certain of which assist Tarbox Family Office, Inc. to better monitor and service client accounts maintained at such institutions. The support services that Tarbox Family Office, Inc. receives can include: investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or free consulting services, discounted and/or free travel and attendance at conferences, meetings, and other educational and/or social events or social events (which can also include transportation and lodging), marketing support, computer hardware and/or software and/or other products used by Tarbox Family Office, Inc. in furtherance of its investment advisory business operations. Certain of the support services and/or products that Tarbox Family Office, Inc. can receive may assist Tarbox Family Office, Inc. in managing and administering client accounts. Others do not directly provide such assistance, but rather assist Tarbox Family Office, Inc. to manage and further develop its business enterprise. The receipt of these support services and products presents a conflict of interest, because Tarbox Family Office, Inc. has the incentive to recommend that clients utilize TD Ameritrade as a broker-dealer/custodian based upon its interest in continuing to receive the above-described support services and products, rather than based on a client's particular need. However, Tarbox Family

Office, Inc.'s clients do not pay more for investment transactions executed and/or assets maintained at TD Ameritrade as a result of this arrangement. There is no corresponding commitment made by Tarbox Family Office, Inc. to TD Ameritrade or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement. Tarbox Family Office, Inc.'s Chief Compliance Officer, Mary Sigler, remains available to address any questions that a client or prospective client may have regarding the above arrangements and the conflict of interest presented.

TD Ameritrade Institutional President's Council. As indicated in Item 10.C., Laura Tarbox, the owner and principal of Tarbox Family Office, Inc., serves on the TD Ameritrade Institutional President's Council (the "Council"). Ms. Tarbox may be called upon periodically to attend meetings and participate on conference calls or outreaches on an as needed basis. At times, Council members are provided confidential information about TDA Institutional initiatives. Council Members are therefore required to sign a confidentiality agreement. TD Ameritrade does not compensate Council members. However, Ms. Tarbox receives free airfare to attend Council meetings every other year. The benefits that Laura Tarbox or Tarbox Family Office, Inc. receives by serving on the Council do not depend on the amount of brokerage transactions directed to TD Ameritrade or any affiliated entities. Clients should be aware, however, that the receipt of economic benefits by Ms. Tarbox or Tarbox Family Office, Inc. presents a conflict of interest because it may incentivize Tarbox Family Office, Inc. and its representatives to recommend that clients engage TD Ameritrade, TDA Institutional, and its affiliates to provide broker-dealer/custodial, or other services based on the intention to receive the above-described benefits. Clients are therefore reminded that they are not required to engage TD Ameritrade, TDA Institutional, or any affiliated entities to provide broker-dealer/custodial, or other services.

2. Tarbox Family Office, Inc. does not receive referrals from broker-dealers.
3. Tarbox Family Office, Inc. does not generally accept directed brokerage arrangements (when a client requires that account transactions be executed through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Tarbox Family Office, Inc. will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by Tarbox Family Office, Inc. As a result, the client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case. In the event that the client directs Tarbox Family Office, Inc. to execute securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to execute account transactions through alternative clearing arrangements that may be available through Tarbox Family Office, Inc. Higher transaction costs adversely impact account performance. Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts. Tarbox Family Office, Inc.'s Chief Compliance Officer, Mary Sigler, remains available to address any questions about the above arrangements.

- B. To the extent that Tarbox Family Office, Inc. provides investment management services to its clients, the transactions for each client account generally will be executed independently, unless Tarbox Family Office, Inc. decides to purchase or sell the same securities for several clients at approximately the same time. Tarbox Family Office, Inc. may (but is not obligated to) combine or “bunch” such orders to obtain best execution, to negotiate more favorable commission rates or to allocate differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently equitably among Tarbox Family Office, Inc.’s clients. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. Tarbox Family Office, Inc. will not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Tarbox Family Office, Inc. provides investment supervisory services, account reviews are conducted on an ongoing basis by Tarbox Family Office, Inc.’s Principals and/or representatives.

Tarbox Family Office, Inc. maintains a disciplined, ongoing approach towards portfolio reviews to:

- Rebalance the portfolios through time to the target asset class allocations set forth in each client’s Investment Policy Statement.
 - Rebalancing is implemented on an “as-needed” basis and not on any periodic schedule.
 - Realize tax losses (“tax loss harvesting”).
 - Identify bonds maturing or being redeemed early so the proceeds can be efficiently and timely reinvested.
 - Identify new funds deposited or assets transferred into the account for effective investment and allocation.
 - Review and accommodate client’s cash needs (in case cash is needed for the client to withdraw on a scheduled, periodic, or one-time basis).
 - Implement decisions made by Tarbox Family Office, Inc.’s Investment Committee to change portfolio composition.
 - Accommodate client-directed modifications.
- B. Tarbox Family Office, Inc. may conduct account reviews on a non-periodic basis upon a triggering event, such as a change in client investment objectives and/or financial situation, market events, or specific client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. Tarbox Family Office, Inc. may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

- A. Tarbox Family Office, Inc. does not accept referral fees from other professionals when a client is referred to another firm.

Tarbox Family Office, Inc.:

- Does not charge any markup on any securities purchased or sold for clients.
- Does not receive any compensation based on the securities used in the portfolios managed.
- Does not receive commissions of any kind from trades executed for its clients.

Custodians / broker-dealers (see Item 12: Brokerage Practices) and mutual fund companies may also make available to Tarbox Family Office, Inc. other products and services that may directly benefit Tarbox Family Office, Inc. These services may include (i) compliance, legal and business consulting; (ii) publications and conferences on practice management; and (iii) educational or business events. Tarbox Family Office, Inc. strives to avoid having such economic benefits impact either the selection of investments or its recommendation for custodial relationships.

As referenced in Item 12.A.1 above, Tarbox Family Office, Inc. receives economic benefits from TD Ameritrade including support services and/or products without cost (and/or at a discount). Tarbox Family Office, Inc.'s clients do not pay more for investment transactions executed and/or assets maintained at TD Ameritrade as a result of this arrangement. There is no corresponding commitment made by Tarbox Family Office, Inc. to TD Ameritrade or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

- B. Neither Tarbox Family Office, Inc. nor related persons of Tarbox Family Office, Inc. compensate non-supervised persons for client referrals.

Item 15 Custody

Tarbox Family Office, Inc. will have the ability to have its advisory fee for each client debited by the custodian on a quarterly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. Tarbox Family Office, Inc. may also provide a written periodic report summarizing account activity and performance. To the extent that Tarbox Family Office, Inc. provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by Tarbox Family Office, Inc. with the account statements received from the account custodian. Tarbox Family Office, Inc.'s statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities. The account custodian does not verify the accuracy of Tarbox Family Office, Inc.'s advisory fee calculation.

Tarbox Family Office, Inc. engages in other practices and services on behalf of its clients that require disclosure at ADV Part 1, Item 9. Some of the practices and services subject the affected accounts to an annual surprise CPA examination in accordance with the requirements of Rule 206(4)-2 under the Investment Advisers Act of 1940. Other clients have signed asset transfer authorizations which permit the qualified custodian to rely upon instructions from Tarbox Family Office, Inc. to transfer client funds to "third parties." These arrangements are also reflected at ADV

Part 1, Item 9, but in accordance with the guidance provided in the SEC's February 21, 2017 Investment Adviser Association No-Action Letter, the affected accounts are not subjected to an annual surprise CPA examination.

Item 16 Investment Discretion

The client can determine to engage Tarbox Family Office, Inc. to provide investment advisory services on a discretionary basis. Prior to Tarbox Family Office, Inc. assuming discretionary authority over a client's account, client will be required to execute Investment Advisory Agreement, naming Tarbox Family Office, Inc. as client's attorney and agent in fact, granting Tarbox Family Office, Inc. full authority to buy, sell, or otherwise execute investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage Tarbox Family Office, Inc. on a discretionary basis may, at any time, impose restrictions, in writing, on Tarbox Family Office, Inc.'s discretionary authority (i.e. limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe Tarbox Family Office, Inc.'s use of margin, etc.).

Item 17 Voting Client Securities

- A. Unless the client directs otherwise in writing, Tarbox Family Office, Inc. is responsible for voting client proxies. However, the client shall maintain exclusive responsibility for all legal proceedings or other type events pertaining to the account assets, including, but not limited to, class action lawsuits. Tarbox Family Office, Inc. shall vote proxies in accordance with its Proxy Voting Policy, a copy of which is available upon request. Tarbox Family Office, Inc. shall monitor corporate actions of individual issuers and investment companies consistent with Tarbox Family Office, Inc.'s fiduciary duty to vote proxies in the best interests of its clients. Although the factors which Tarbox Family Office, Inc. will consider when determining how it will vote differ on a case by case basis, they may, but are not limited to, include a review of recommendations from issuer management, shareholder proposals, cost effects of such proposals, effect on employees and executive and director compensation. With respect to individual issuers, Tarbox Family Office, Inc. may be solicited to vote on matters including corporate governance, adoption or amendments to compensation plans (including stock options), and matters involving social issues and corporate responsibility. With respect to investment companies (e.g., mutual funds), Tarbox Family Office, Inc. may be solicited to vote on matters including the approval of advisory contracts, distribution plans, and mergers. Tarbox Family Office, Inc. shall maintain records pertaining to proxy voting as required pursuant to Rule 204-2 (c)(2) under the Advisers Act. Copies of Rules 206(4)-6 and 204-2(c)(2) are available upon written request. In addition, information pertaining to how Tarbox Family Office, Inc. voted on any specific proxy issue is also available upon written request. Requests should be made by contacting Tarbox Family Office, Inc.'s Chief Compliance Officer, Mary Sigler.
- B. Not Applicable

Item 18 Financial Information

- A. Tarbox Family Office, Inc. does not solicit fees of more than \$1,200, per client, six months or more in advance.
- B. Tarbox Family Office, Inc. is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. Tarbox Family Office, Inc. has not been the subject of a bankruptcy petition.

ANY QUESTIONS: Tarbox Family Office, Inc.'s Chief Compliance Officer, Mary Sigler, remains available to address any questions that a client or prospective client may have about the above disclosures and arrangements.
